EAGER TO EXCELLENCE

Established in 2005, PT Girder Indonesia is a private civil contracting company and a subsidiary of PT Citra Marga Nusaphala Persada Tbk

Starting from concrete girder supply work, PT Girder Indonesia has grown into a construction services company engaged in toll road project management and pre-cast production for infrastructure projects, while actively contributing to the development of Indonesia's infrastructure.

This significant growth has been supported by the contribution of the company's highly competent human resources who uphold work professionalism.

PT Girder Indonesia will continue to adapt and innovate in response to technological advancements in the infrastructure sector.

With the motto "EAGER TO EXCELLENCE" and strong support from its holding company, PT Girder Indonesia is ready to collaborate on construction projects and become a reliable private contractor in its field.

Vision

To become a reliable, trusted, sustainable, and highly competitive national private construction company by leveraging technology and innovation.

Mision

- Prioritizing customer satisfaction in business through quality products, timely delivery, and competitive pricing.
- Enhancing business value to provide positive contributions to shareholders and employees through professional, integrity-driven and competitive human resources.
- Conducting sustainable company operations through excellence in innovation and technology while prioritizing occupational health, safety, and environmental responsibility.

COMPANY POLICY

PT Girder Indonesia is a construction services company that prioritizes work quality, occupational health and safety, environmental protection, and conducting healthy business practices by preventing bribery.

In implementing its management system, PT Girder Indonesia consistently adheres to ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, ISO 37001:2016, and SMK3 Government Regulation No. 50 of 2012 on a continuous basis, always prioritizing:

- G**ood Quality and Good Services
- I**ntegrity and Commitment
- R**eliable and Trustworthy
- D**ominant in Technology and Innovation
- E**xcellent in HSE
- R**eady for Speed

MESSAGE FROM THE PRESIDENT DIRECTOR

PT Girder Indonesia will continue to adapt and innovate in response to technological advancements in the infrastructure sector. With the motto "Eager to Excellence" and strong support from its holding company, PT Girder Indonesia is ready to collaborate on construction projects and become a reliable private contractor in its field.

SERVICES

Road and Bridge Construction / Civil Works

As an experienced private civil contractor, PT Girder Indonesia handles a wide range of infrastructure projects, from toll road and bridge construction to other strategic projects.

Our services include Design & Review, Construction Execution, Maintenance, and Structural Strengthening of existing structures. We prioritize technical precision, time efficiency, cost-effectiveness, and workplace safety at every stage of project execution.

Precast Concrete

PT Girder Indonesia provides precast concrete production services used as structural elements in various infrastructure projects.

Our precast concrete services encompass the supply of structural concrete products for infrastructure with high quality standards, efficiency, and full accountability.

WHY CHOOSE US?

01.

Specialist in Road, Bridge, and Toll Road Infrastructure Construction

Focused on precast concrete girder works and toll road infrastructure projects, with a proven track record as a main contractor on major toll road developments, including Soroja, Cisumdawu, and HBR2.

02.

Speed, Innovation, and Quality Excellence

Achieved the MURI Record for rapid bridge construction using advanced precast and pile slab technology, supported by high quality and safety standards.

03.

Strong Holding Support and Strategic Network

As part of the CMNP Group, we have access to major national projects, reliable funding, and trusted partnerships with state-owned enterprises (BUMN) and leading private companies.

04.

Large-Scale Projects and Vertical Integration

Handling large-scale toll road and bridge projects while simultaneously producing our own precast materials for cost efficiency and better quality control.
